

## Hwy to Be Repaired

### Terry Rites Tuesday

Funeral services for Claude Willis Terry, a former Canyon resident and father of Mrs. Durward Brown of Canyon, were conducted at 10 a.m. Tuesday in Post.

Mr. Terry, 79, died suddenly shortly after midnight Friday in Post hospital. He had suffered a heart attack earlier Friday.

Services were held in the First Baptist Church of Post, with Rev. C.E. Hogue, pastor, officiating. Burial was in the cemetery at Post.

A member of the First Baptist Church of Post, Mr. Terry was a retired Santa Fe worker.

He lived in Canyon for many years, moving to Post around 20 years ago.

Besides Mrs. Brown, survivors include his wife, two other daughters, Mrs. Reece Elvins of Slaton and Mrs. Claude Weatherbee of Floydada; and five grandchildren.

The Browns attended the funeral, and Mrs. Brown remained in Post with her mother.

### Former Canyon Woman Buried At Bell City

Funeral services for Mrs. Etta K. Spann, 82, a former Canyon resident, were held in the First Baptist Church of Skellytown September 30.

Mrs. Spann died at 1:12 a.m. September 27 in Neblett Hospital here after a short illness.

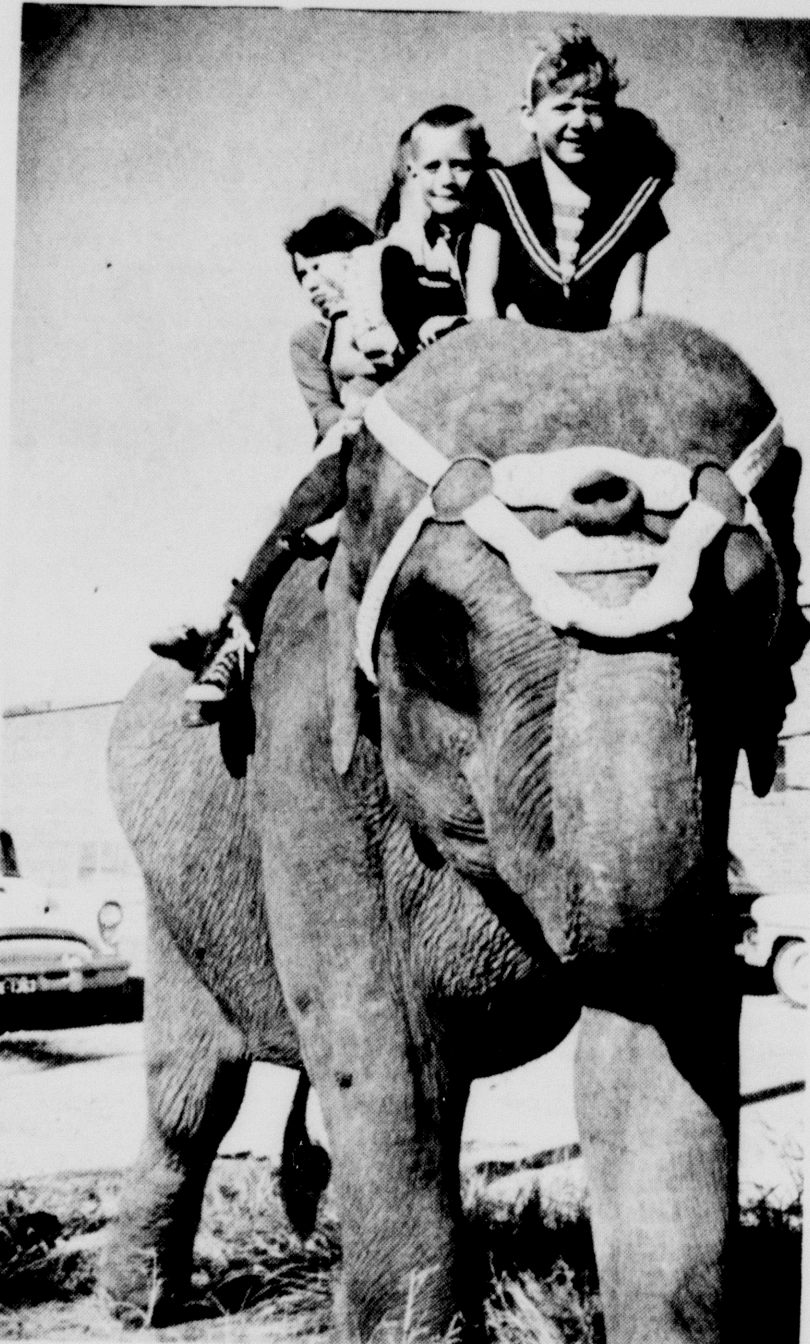

She formerly lived at 1313 Fifth Avenue with her brother, the late W.J. Kitts, and her sister, the late Mrs. Lillie Morgan.

Mrs. Spann was born August 25, 1878, in Water Valley, Kentucky.

Rev. Ennis Hill, pastor of the Calvary Baptist Church of Pampa, officiated at the Skellytown services. A second service was held October 2 at Beach Grove Presbyterian Church near Bell City, Kentucky.

Burial was in Bell City Cemetery.

Mrs. Spann, who was a Baptist, is survived by several nieces and nephews and was making her home with her nephew, Rev. Truman Luther of Skellytown, at the time of her death.

BIG ATTRACTION at the Jaycee circus last week was the elephant ride. Tickets were furnished all children in the elementary school and it was the first circus for many of them.

### Four Lanes to Go Into Hereford

Texas Highway Department will take the wrinkles out of rub board Highway 60 west from Canyon.

The department also will let contract for construction of a four-lane divided highway from the Randall County line to Hereford.

This information came Wednesday from C.D. Schnack, Highway Department senior engineering assistant here.

Schnack said plans call for a mat of 1 1/2-inch asphaltic concrete pavement to be laid down on the highway during the paving season next summer.

"When we're done that highway will be just as smooth as a floor from here to Hereford," he declared.

The highway from Canyon to the Deaf Smith County line originally was improved by penetration method. A film of asphalt was squirted onto the road surface and then the coating was covered with crushed rock.

The hot mix method differs from the penetration method in that the asphalt and rock are mixed at a plant and then laid down as a mat.

Schnack said that when the hot mix is applied to Highway 60 out of Canyon that Highway then will be comparable to Highway 87 south toward Tulsa.

Schnack said contract will be let early next year for highway construction along 60 from the Randall County line to Hereford. "That will give a four-lane divided highway from Canyon to Hereford," he said.

There has been considerable complaint about the condition of Highway 60 from here to the Deaf Smith County line. The improvement on this stretch of road was completed in July.

Difficulties of the highway department in effecting the improvement were varied and many.

Schnack said that money for the improvement was appropriated in the middle 1950's and original intent was to put down hot mix in the first place. However, so much time was consumed in obtaining right of way and clearing other obstacles that when everything was ready for construction the money appropriated was not sufficient for a first class job.

To cap that, the road was built under some of the most adverse weather conditions observed here in years, Schnack said. From December 14 to March 16, there was not a single day fit for work.

He said wet weather, freezes and thaws during construction damaged the highway before it was completed. "On top of that we had to build one through lane last winter to handle the traffic," Schnack declared. "That's the present west-bound lane. That's the one which is so rough."

Schnack said little could be done at the present time to alleviate danger at access streets along the highway in Canyon. He said interchanges will be constructed when traffic counts warrant such construction.

Include \$3,000 in the 1961 budget to allow for participation in a group insurance plan for county employees.

Hearing on the budget will be held at 2:30 p.m. October 17 in Commissioners Courtroom in the courthouse.

County auditor E.T. Cummings was authorized to advertise for bids on a calculator for the office of Bill Money, tax assessor-collector.

Cummings was also told to

start at fullback Friday providing his injured ankle improves. Elmer Oberst and Jim

Marrs will share in fullback duties, Coach Webb assured. Harry Lisle and Ralph Cade will be in the halfback slots and Doug Ward at quarterback at kickoff time.

On the line will be Jin Killingsworth and Wayne Rutherford at ends; Jess Sheets and Tim White at tackle; Bill Callarman and Gary Lee at guard and Warren Rutherford at center.

Coach Webb says that scouting reports of the Floydada team show that the team has a heavy line and a very quick backfield. Seven seniors, three juniors and one sophomore make up the starting roster.

This game marks the half-way point for the Eagles.

### Traffic Check For 23rd Street

Request for a traffic survey on 23rd Street was filed with the district highway engineer, Charles Smith, by city manager Bill York this week.

Request called for traffic counts to be made at the intersections of 2nd Avenue and 8th Avenue.

York based his request on the fact that Canyon gains approximately 2,000 cars during the college months and it is "extremely difficult and hazardous to get on or across 23rd St."

York received a reply from Smith Wednesday stating that a count will be taken at the

intersection on 23rd Street and 2nd Avenue and also at 5th Avenue.

No mention was made of a survey at 8th Avenue.

The traffic count will determine if fixed-time traffic signals will be justified.

Smith also informed York by letter that a speed check will be made along 23rd street.

York said that if 80 per cent of the traffic along the street exceed the speed limit, the speed limit could be raised.

These surveys will be made in the near future, according to Smith.

### Randall Commissioners Questioned About Purchasing Right-of-way

Earl Marrs, property owner along the route of the proposed loop around Amarillo, questioned Randall County Commissioner's Court about paying plans for the area.

Marrs, who donated right-of-way for a section of the loop five years ago, asked if Randall County might use local funds to buy other right-of-way for paving the 3.5 miles proposed for construction by the Texas Highway Department.

The section is part of the route for the proposed loop. Voters defeated a bond issue that would have provided funds for the right-of-way.

Marrs told the commissioners he and other property owners had discussed the possibility of using local funds and he thought most property owners would sell right-of-way reasonably.

Commissioner Glenn Dowlen asked Marrs if they would be interested in settling on a basis of tax roll valuations. Marrs said he did not know.

Marrs said he thought paying would increase the value of property and that was the reason he donated property.

In other business, commissioners authorized advertising for bids for a two-way radio to be used by Lloyd Dale, who was recently assigned to South Amarillo duty by the Texas Highway Patrol. The ordered the installation of a reconditioned two-way radio in the

county-owned fire truck.

County auditor E.T. Cummings was authorized to advertise for bids on a calculator for the office of Bill Money, tax assessor-collector.

Cummings was also told to

start at fullback Friday providing his injured ankle improves. Elmer Oberst and Jim

Marrs will share in fullback duties, Coach Webb assured. Harry Lisle and Ralph Cade will be in the halfback slots and Doug Ward at quarterback at kickoff time.

Coach Webb says that scouting reports of the Floydada team show that the team has a heavy line and a very quick backfield. Seven seniors, three juniors and one sophomore make up the starting roster.

This game marks the half-way point for the Eagles.

Marie Cooper, who operates Marie's Beauty Salon here, will be featured at the National Beauty and Trade Show in New York this weekend.

Mrs. Cooper is a nationally known hair stylist. She will present hair fashions at the New York show, which will be held at the Statler Hotel.

Jerry Reynolds is slated to

start at fullback Friday providing his injured ankle improves. Elmer Oberst and Jim

Marrs will share in fullback duties, Coach Webb assured. Harry Lisle and Ralph Cade will be in the halfback slots and Doug Ward at quarterback at kickoff time.

On the line will be Jin Killingsworth and Wayne Rutherford at ends; Jess Sheets and Tim White at tackle; Bill Callarman and Gary Lee at guard and Warren Rutherford at center.

DEATH CAR for Mrs. Henry Davis of Amarillo is shown above. Mrs. Davis was found in the back seat of the car after a fire was extinguished. When police opened a door, a gasoline can fell from the car. Death occurred at 6:30 a.m. Monday. Car was found just off Washington Street South of Amarillo. She left a note to her family written on the back of a Parent Teacher Association letter. Sheriff L.S. Johnston and deputy Cliff Longest are shown above investigating the incident. Coroner Mrs. W.J. Flescher is withholding a decision as to cause of death pending final investigation.

### 'American Legend' Theme Of College Homecoming

"American Legend" will be the theme of this year's West Texas State College Homecoming, set November 5.

Final schedule of events have been announced by the college's homecoming committee, headed by Dr. Jack Walker.

Highlights of Homecoming will be a western week assembly, parade, barbecue, afternoon football game, and dance, following a pattern set last year.

Tickets for the barbecue are available now at the Chamber of Commerce office. Charge is \$1.25 per ticket.

The barbecue, a traditional Homecoming event, will be catered by Walter Jetton of Fort Worth, who catered last year's noon meal. The event will be held at 12 noon November 5 in old Buffalo Stadium.

### Well Flops

The Texas Wildcat north of Canyon is being abandoned, according to George Lewis, geologist for the firm.

Lewis said the test probed to 8,213 feet before the decision was reached to abandon. There was no pay show. Lewis said further details will be available the latter part of the week.

### Hi School Homecoming Slated October 13-14

Plans for the fifth annual Canyon High School Homecoming have been announced. Homecoming will be October 13-14.

Included in this year's events will be a bonfire and pep rally, special assembly, reception for ex-students, chuck wagon supper and football game.

Kicking off homecoming activities will be the pep rally and bonfire at 7:30 p.m. Thursday, October 13, west of the old Vocational Agriculture Building. Coronation of Flame King and Queen will climax the pep rally.

Open house at Canyon High will be held all day Friday. A special assembly will be presented at 2:30 p.m., honoring all Ex-Students of CHS. Dr. Ray Small, an English instructor at Amarillo College, will be speaker.

Dr. Small is a graduate of the class of 1932, the honor class.

All Canyon ex-students have been urged to attend by school officials.

Following the assembly, the Future Homemakers of America will give a reception for exes in the homemaking department.

A chuck wagon supper will be served in the cafeteria from 4:30 until 7:30 p.m. by the Parent-Teachers Association. Menu will be barbecued beef, beans, slaw, cooked fruit, and coffee. Pie and cake will be available for purchase.

Those who know in advance that they will attend the supper

Approximately 1,000 band and riding club members will be guests of the Canyon Chamber of Commerce at the barbecue, after participating in a parade at 11 a.m. through downtown Canyon.

A western dance, sponsored by Chi Omega, national social fraternity for girls, will kick-off Homecoming week. It will be held at 8 p.m. November 2 in the Student Union Building.

Western week will begin the next day, with three articles of clothing required for all students and faculty members.

Traditional Homecoming assembly is slated at 11 a.m. November 3. The program will be videotaped and played back over KGNC-TV at 4 p.m. Homecoming Queen and her court will be presented.

A bonfire and pep rally is slated for 7 p.m. November 4. Site is to be announced.

Events of Homecoming day will begin with a reunion of the silver anniversary class of 1935 in the west side of the college cafeteria.

Registration of all Ex-Students begins at 9 a.m. in the Student Union Building.

Homecoming parade over a route that will include downtown Canyon will begin at 11 a.m. Expected to participate are seven riding clubs and eleven bands, plus numerous floats. Floats must follow a theme of "American Legend."

#### Foundation Accepting Applications

Senior men and women at West Texas State College may now seek nomination for fellowships from the Woodrow Wilson National Fellowship Foundation for graduate study, according to Dr. George de Schweinitz, professor of English.

Dr. de Schweinitz is the WT representative for the Foundation, and he said that deadline for applications is October 31. Students, however, must be nominated by faculty members for the fellowships, which are for \$1500, full tuition, and family allowances at any university in Canada and the U.S.

The fellowship program is designed to encourage qualified students to continue graduate study toward future college teaching. Students with a scholastic average of B plus or better may be nominated.

The program annually grants 1000 fellowships. Further information may be obtained from Dr. de Schweinitz.

Pop talks economy, but he expects it to begin at home—when it should begin at the club.

#### Toastmasters Discuss Politics

H.R. Fulton, Jr., conducted a session concerning current political issues Monday night at a meeting of Canyon Toastmasters Club.

During the session, each member was allowed two minutes to discuss his views on an assigned issue.

Al Craig served as toastmaster for the evening, introducing Fulton, who was topic-master. He also presented Bob Brotherton and Larry Roberts as speakers of the meeting.

Following the speeches, an evaluation panel composed of T.F. McKinney and Joe Franks discussed the outstanding parts of the speeches and offered constructive criticism to improve the speaker's ability.

During a short business meeting, it was announced that several vacancies now exist in the club. Interested persons are invited to attend Toastmasters Club meetings on Monday night at 7 o'clock in the American Legion Hall.

Larry Roberts, new president of the club, presided at the meeting.

Tommy Sullivan has remodeled and is now operating the Buffalo Laundry.

The firm features the most modern washing and drying machines including large machines for use in washing heavy fabrics.

The Buffalo Laundry is operated as a coin laundry and is open 24 hours a day. Sullivan has announced open house at the firm the first three days of next week.

Sullivan owns Sunrise Wash & Dry, Trades Fair Wash and Dry and Trades Fair Beauty Salon in Amarillo.

Sullivan formerly was educational director of Central Church of Christ in Amarillo. He has had a career in public relations, church work and business.

Attendant at the Canyon business is Mrs. Janet Thrasher.

Buffalo Laundry is located next door to Buffalo Drug.

# Woodwind Quintet to Appear Sunday; Membership Drive Open Now

MEMBERS of the San Antonio Woodwind Quintet appearing here in concert Sunday are George Schwartz, John Shults, Daniel Stolper, John Hicks, and Leland Munger. Jean White is pianist for the group. They will appear at 4 p.m. in the administration building auditorium on the West Texas State College and are sponsored by the Canyon Community Concert.

A week-long membership drive by the Canyon Community Concert Association will be climaxed by a concert by the San Antonio Woodwind Quintet at 4 p.m. Sunday in the Administration Building auditorium.

The only regularly organized professional woodwind group in this part of the country, the San Antonio group is made up of the principal woodwind players of the San Antonio Symphony Orchestra.

Since the membership drive began Monday with a buffet supper for workers in the A.W. Lair home, admission tickets will not have been issued by the Sunday concert. Admission will therefore be by receipt stubs showing dues paid.

Members of the San Antonio Quintet are John Hicks, flutist; Daniel Stolper, oboist; Leland Munger, clarinetist; John Shults, horn, and George Schwartz, bassoon.

The quintet will be assisted by Jean White, pianist.

Membership dues for the concert association is \$7.50 for adults and \$4 for students. Admission to concerts is by membership card only, and no tickets are sold at the door.

Campaign workers began the drive following the supper in the Lair home.

Mrs. Pearl A. Sumers, New York Community Concert field representative, discussed availability of artists, and Milton Morris, campaign manager, discussed procedures in a pep talk.

About 40 persons were present.

Drive for members will close at noon Saturday, and the executive board will meet that afternoon to choose additional artists.

Also announced as appearing in a concert here was Dorothy Warendshold, nationally-known soprano, who will appear here February 18.

## Rev. Doyle Ragle Sets Talks Here Oct. 18-19

A former Canyon pastor, Rev. H. Doyle Ragle of Vernon, will be principal speaker for three groups during two days in mid-October.

Rev. Ragle, who was pastor of the First Methodist Church here until June, will speak on his trip to Europe and the Holy Land before the Lions Club, Rotary Club, and the First Methodist Church congregation.

## Canyonites At Speech Meet

Four members of the speech department at West Texas State College are attending the joint convention of two state speech associations today in Houston.

Planning to attend sessions of the Texas Speech Association and the Texas Speech and Hearing Association are Dr. Cranell Tolliver, head of the WT speech department, Dr. Jack Walker, Dr. Wendell Cain, and David M. Lipscomb.

Mrs. Margaret Foster, Canyon High School teacher, who is district representative for the speech association's executive council, also plans to attend. Mrs. Tolliver will also accompany her husband.

Dr. Tolliver, immediate past president of the association, is a member of the executive council and nominating committee. Dr. Cain is a member of the time and place committee and will head the committee this year.

Sections have been scheduled dealing with radio and television, dramatics, interpretation, forensics, business speech, curriculum problems from junior high through graduate studies, and other areas of speech and hearing therapy.

He will be in Canyon October 18 and 19.

Money for his trip to Europe and the Holy Land was raised by the congregation of the First Methodist Church in appreciation for his services.

A former member of the Canyon Rotary Club, Rev. Ragle will speak at their noon meeting October 18 and at the Lions Club October 19.

His report to the church congregation is scheduled at a family night supper in Fellowship Hall of the church October 19.

## Highway Patrolman Rotary Speaker

Highway patrolman Gilbert Ray told Rotary Members Tuesday of the Safety Responsibility Act and how it affects every Texas driver.

In explaining the act to Rotarians, Ray said that in case of any accident where damages exceed \$100 a cash bond must be posted with the Department of Public Safety if insurance does not cover the damages.

This act does not require that a car owner have insurance nor does a car owner have to prove financial responsibility prior to an accident.

Mrs. Lucille Hutchins returned Wednesday afternoon after visiting her mother, Mrs. W.D. Twitty of Byrnes, near Waco. Mrs. Twitty, who has been ill, is in "a little better condition," Mrs. Hutchins, dorm mother for Brown Hall, left September 23.

# Museum Setting for TV Show

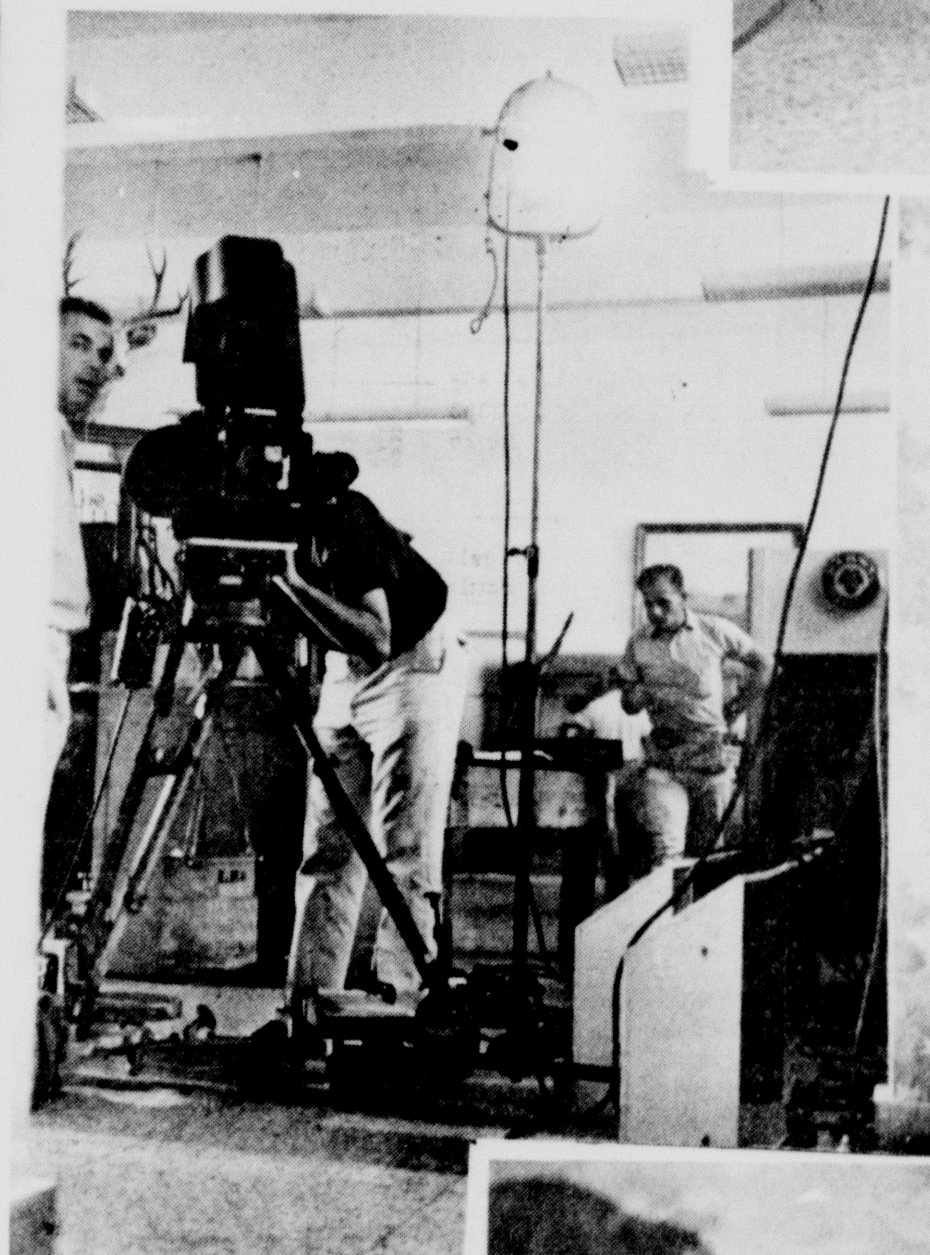

BIG-TIME television production came to Canyon when an NBC-TV crew was at the Panhandle Plains Museum for part of the filming of the Roberts family story to be shown November 14. The family, from Amarillo, was recently chosen as "The Typical American Family."

CAMERA had to be adjusted for height and angle before starting. Crew members are shown working on the rolling tripod.

LIGHTING CREWS worried with lamps, adjusting lighting and moving wires almost an hour before filming started.

## Monday Last Meeting For Parents-Teachers

Annual series of meetings between teachers and parents of

elementary school students concluded Monday night. The sessions were held for the parents and teachers by grades. Elementary school includes grades 1-4.

F.R. (Rex) Reeves, principal of elementary school, said that it had been reported to him that a good percentage of the parents attended the meetings. The sessions are held yearly so that parents may become acquainted with teachers, ask questions, and so that teachers may explain the various programs of each grade.

MRS. TOMMY GERBER

(Photo by Britain's Studio)

Joyce Friemel, Tommy Gerber  
Exchange Vows at St. Mary's

Miss Joyce Friemel and Tommy Gerber were married recently in St. Mary's Church at Umbarger, with Msgr. W.F. Bosen, pastor, officiating at the double ring ceremony.

Mr. and Mrs. Herbert Friemel and Mr. and Mrs. Bill Gerber, all of Umbarger, are parents of the couple.

Vows were exchanged at an altar decorated with a blue satin covered kneeling bench and arrangements of white mums and gladioli.

Miss Mary Buecker, organist, accompanied St. Mary's senior choir as they provided nuptial music.

Miss Elaine Batenhorst was maid-of-honor, with Judy Magness, Janice Gerber, sister of the bridegroom, and Ann Hermesmeier as bridesmaids. Miss Beverly Ann Friemel served her sister as flower girl.

They wore identically styled princess dresses of beige embroidered silk organza over taffeta. They carried cascades of bronze mums.

Billy Gerber was his brother's best man. Groomsman

were Fred Ball, Carol Lindemann, and Robert Wieck. Kenneth Gerber, brother of the bridegroom, was ring bearer. Ushers were Donald Gerber and Bob Sharke.

Joe Mike Albracht and Cecilia Friemel, representing the Children of Mary, presented statues of the Holy Family to the couple.

The bride was escorted to the altar and given in marriage by her father.

She wore a formal princess style wedding gown of peau de sole, delicately inscribed with seed pearls and re-embroidered with Alencon lace. The bodice was fashioned with long, tapered sleeves, and a V-neckline. The bouffant skirt was accented with appliques of re-embroidered Alencon lace and seed pearls. Her veil of silk illusion was held by a crown encrusted with seed pearls. She carried a cascade bouquet of feathered mums centered with an orchid.

A reception was held in the home of the bride, with a dance following in St. Mary's Parish Hall.

# WT Switchboard Operator Go-between for College

By Brad Wilson  
WT Journalism Student

Although Mrs. Osce L. Parsons of 700 12th Street can't see her customers, she knows them just the same. Mrs. Parsons is not physically handicapped; she is the West Texas State College switchboard operator.

"Even though I can't see my customers, and wouldn't recognize them if I were to pass them in the hall, I feel that I

know them personally by their voices."

Mrs. Parsons, who refers to herself as a "go-between" and "the peoples' secretary," has been operator of the college switchboard for only one and one half years, but she is not a newcomer to the business. Prior to accepting duties at West Texas State, Mrs. Parsons was employed by the local telephone company in Canyon for 15 years.

As a "go-between," Mrs. Parsons' duty is to connect people on the outside of the campus with those inside the college, and vice versa.

Feeling that the most satisfactory customer to deal with is one who knows what he wants, Mrs. Parsons says, "people here at West Texas are well informed and know what they want."

"Being in constant contact with people makes my work very enjoyable," says Mrs. Parsons.

people than any other individual at West Texas State.

"I know that my personality will reflect upon the college, so I try to do my best at all times—and although I may seem harsh at times, I'm only trying to be of service."

In addition to her regular duties at the switchboard, Mrs. Parsons is training four West Texas students how to operate the PBX (Private Branch Exchange) board in her absence.

The PBX, a combination of wires and gadgets sufficient to fly a B-36, is somewhat different from the ordinary switchboard, and requires a well-trained operator to detect its occasional ills.

Mrs. Parsons offers these two suggestions for saving time while placing special calls:

- (1) One party calling in, or out, can be connected with as many as three persons at one time if the operator is notified in advance, in order that she can locate the persons desired.
- (2) If a number of calls need to be placed to several different locations, the individual who wishes to place the calls should notify the PBX operator in advance and give full information concerning the parties desired. The PBX operator, in turn, contacts an outside operator who will handle the calls and pass along the information.

"Hello, West Texas State... Thank you..." and thank you, operator.

## Hill Circle Hosts WSCS

The Joyce Hill Circle was hostess to the general meeting of the Woman's Society of Christian Service of the First Methodist Church Tuesday in the church parlor.

Mrs. J.R. Bond, representing the Naomi Hare Circle, was named "Woman of the Month."

Mrs. C.A. Murray presented the program with the theme "Christian Citizenship."

"Living Echoes" was the title of devotionals given by Mrs. T.W. Collins. The scripture reading was given by Mrs. J.R. Christner.

Mrs. A.W. Lair sang "The Ninety and Nine" and led the group in singing "Tell Me the Old, Old Story."

Mrs. Murray introduced Mrs. Craig Johnson, Mrs. L.H. Brotherton, and Mrs. C.D. Schnak, who presented dramatic read-

## Workshop on Clothing Set Tonight at School

A clothing workshop for adults will be open for beginners and advanced students Thursday from 7:30 until 9:30 p.m. in the homemaking laboratory at Canyon High School.

First session will be on taking measurements to determine pattern size, pattern adjustments, and straightening material.

Fourteen students may enroll in the course, which will include discussions, demonstrations, individual help, and visual aids.

The course will run for eight lessons, each on Thursday night.

## Calvary WMU Officers Named

Officers of the Woman's Missionary Union of the Calvary Baptist Church were installed September 27 by Mrs. T.B. McCandless, Association president.

Mrs. D.C. Lindley will serve as president.

Other officers are Mrs. W.T. Reynolds, vice-president; Mrs. Lynn Blewett, secretary; Mrs. Bill Sherer, treasurer; Mrs. James Reynolds, program chairman; Mrs. Arlen Ruthart, prayer chairman.

Mrs. Cecil Waters, mission study; Mrs. C.A. Pruitt, community mission; Mrs. O.C. Free, stewardship; Mrs. M.A. Keller, social; Mrs. Aaron Mann and Mrs. Keith Poole, Abbott and Hancock Circles; and Mrs. R.C. Campsey, G.A. director.

## Study Groups Formed By AAUW Branch

Study groups were organized when the Canyon branch of the American Association of University Women met for a luncheon October 1 in the Canyon Elementary School cafeteria.

Among groups organized were music appreciation, drama reading, French, appreciation of Community Film Series, and international relations.

A discussion of the first film of the Community Film Series will be held November 1 in the home of Mrs. Harold W. Peterson, 2511 Sixth Avenue. Showing at the Olympic Theatre November 1-2 under the sponsorship of the Community Film Series will be "Wild Strawberries," a Swedish-made film released in 1959.

Music appreciation group will be October 20 at 7:30 p.m. Site is to be announced.

Fall by the wayside in the race of life and you won't even get paid for the mileage you've earned.

Chart your course in advance then concentrate all your energy toward that coveted goal.

Time for the drama reading group which will meet in the home of Mrs. Lowell, 211 27th street, will be 7:30 p.m. October 13.

Site and time of the French group is to be announced.

The international relations group will meet October 6 at 7:30 p.m. in the home of Miss Elizabeth Cox, 1807 Seventh Ave.

## 250 Turn Out For Home Tour

Approximately 250 persons gathered for the annual home tour sponsored Sunday by the Junior Woman's Book Club.

All workers have not turned in ticket sales, so attendance figures are not final. Total may be as high as 300.

Mrs. Jack Swartzell, reporter-historian of the Book Club, has appreciation to the families whose homes were in the tour.

"We appreciate the time and effort that these women went to in preparing for and having the home tour," she said.

Homes in the tour were those of Jack Walker, Hosea Foster, William B. Davis, James Murphy White, Felix Pierce, Emilio Caballero, and Bob Lindsey.

## LOOK WHAT DODGE HAS DONE FOR COMPACTS

The name, Lancer: one hardtop; one 2-door sedan; two 4-door sedans; two wagons. What kind of cars are they? This kind: two feet shorter; many pounds leaner; a couple of hundred dollars less in cost than usual automobiles. Lancer welcomes a family of six lavishly. Has plenty of trunk. Its fully-unitized body is very quiet, very tough. Lancer is also mannerly. It corners decisively, takes a well scarred road with aplomb. Parks obediently. More reasons to buy? Read on. The interiors are rich, but simple: Shed soil, wear well, feel good. The engine is highly spirited, but extremely light on regular gasoline. One more thing, Lancer is built by Dodge. Our name is on it. This means Lancer will stay nice and shiny. How so? The body is rustproofed by an exclusive Chrysler Corporation process. Enough talk. Meet Lancer at your Dodge Dealer. Now.

# Bufs Face TW Miners In Tilt Here Saturday

For the fourth straight week-end, West Texas State's young football team will play the role of underdog Saturday night when the Bufs meet Texas Western in Buffalo Bowl.

The Border Conference game will start at 7:30 and it will be "high school day" with some 1500 area students in the stands.

Losers of three games in a row to tough clubs, the improving Bufs face a foe this week that has been their jinx opponents for 10 years. Not since 1950, when West Texas won its only Border Conference crown, have the Bufs defeated the El Paso school. In the overall series, the Miners hold a big edge, 13-7.

The Miners, coached by former West Texas grid star Ben Collins, nipped the Bufs, 13-12, last year, and say they are stronger this season. "We should be improved considerably," said Coach Collins, "because we have more experience, depth and size."

Western also has returning John Furman, their 200-pound left handed quarterback who was named "most valuable player" in the Border Conference as a sophomore last fall. The tremendous passer, a big El Paso native makes the Miner offense go and plays linebacker on defense. Another Miner to watch is Charlie Bradshaw, 170-pound senior fullback who led the club in rushing last year and is a strong runner.

The Miners hope to surge beyond the .500 mark against the winless Buffaloes. They are 1-1-1 and looked impressive Saturday when they came from behind to whip a tough U. of New Mexico team, 23-17. They lost the season opener to Utah State, 20-7, and tied North Texas, 13-13. The Bufs have dropped decisions to Texas Tech, 38-14; Arizona State, 14-3; and Mississippi Southern, 28-18.

Coach Joe Kerbel's Herd suffered no serious injuries in the game at Hattiesburg Saturday, and gained considerable prestige in playing the big, tough Southern a strong game.

Jackson, Mississippi papers Sunday morning called the Bufs "surprisingly aggressive," and praised them for "keeping the pressure on Southern all the way."

Southern led at the quarter stops, 7-0, 13-10, and 21-10. The clubs exchanged last quarter touchdowns with the Bufs score coming on an electrifying 58-yard pass from quarterback John Bryant to halfback Jimmy Jones. The same combination brought the Bufs a two-point play after the touchdown. The second quarter West Texas score also came on a pass, this time a 4-yarder from Jim Dawson to Ray McCown. End Charlie Williams booted his second field goal in as many tries, booming a 34-yarder three seconds before the half.

Benedict Wiegand is the only casualty of the game, suffering

## Farm Bureau Meet Slated October 13

County convention of the Randall County Farm Bureau will take place next Thursday, October 13, in the FB hall here.

R.B. Gist, Jr., president, announces that county resolutions recommendations on state and national issues will be adopted. These recommendations will be presented at the state convention to be considered by the state resolutions committee of the Texas bureau.

Gist urges all members to be present at 8 p.m.

The hall is located at 1710 5th Ave.

Visiting in the home of Mr. and Mrs. G.B. Combs Monday and Tuesday Mr. J.M. Hart of Gruver.

Mr. and Mrs. C.V. Lowe of Gruver spent Saturday and Sunday in the G.B. Combs home.

a strained ligament in a foot. Two other guards who have missed the past two games--Bill Bradley and Wayne Parker--are expected to return to camp, along with halfback Bill Dendy, 165-pound hipper-dipper runner.

The Miners boast a big weight advantage. Anchored by 265-pound tackle Luis Hernandez, the Miner line averages 209, compared to the Bufs' 196. The Miner backs hold a 180-170 edge.

## P-TA Draws Large Crowd With School Open House

What was estimated as the largest crowd ever to attend a meeting of the Canyon Parent-Teacher Association gathered at the new Canyon High School September 27.

An informal open house for parents was highlight of the meeting.

Joe A. Gibson, superintendent of Canyon Public Schools, estimated the crowd at 350 persons.

Another open house will be held from 3 until 5 p.m. October 23 and is open to the public. Parents of high school children were given a class schedule of their children and met in short sessions in their children's classes. Teachers were present to explain classroom work and meet with the parents.

Following the tour, the group met in the auditorium, where a male quartet, composed of Dr. Dudley Moore, Bill Davis, Bill Knighton, and Bob Allford, presented special music. Mrs. Allford was accompanist.

A period of recreation and fellowship followed in the cafeteria under the direction of the PTA fellowship committee.

THE '61 PONTIAC IS OUT TODAY!

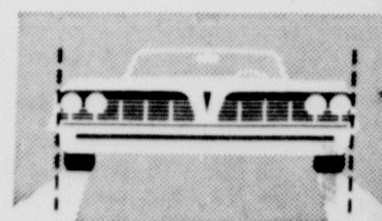

It's All Pontiac!  
on a new Wide-Track!

New track-to-body proportion! The track is the width between the wheels. Pontiac is the only Wide-Track car. Body width is reduced, shaving side overhang, balancing more weight between the wheels. Best relationship of body width to wheel width ever tailored. Lean and sway are ancient history.

Announcing the new Pontiac Trophy V-8 Engine! We've improved the engine the experts said was perfect. New fuel induction system saves gas by using more air in the gasoline mixture. This makes the engine breathe more efficiently, giving you better acceleration. Eleven versions to choose from. Horsepowers range from 215 to 348. For best economy, specify the Trophy Economy V-8. Its lower compression ratio lets you use regular gas.

More headroom, legroom, footroom for greater comfort! You'll take great comfort in the extra roominess we've built into the '61 Pontiac. Seats are higher, yet there's more clearance beneath the steering wheel and more hatroom over your head. There is more legroom, more footroom. Doors are wider and designed to swing open farther. The more highway you put behind you (Pontiac specializes in this) the more you'll appreciate the new room that's all around you in this sleek new '61.

THE ONLY WIDE-TRACK CAR! Body width trimmed to reduce side overhang. More weight balanced between the wheels. No other car hugs the road with such sure-footed stability and precision.

## Roy Price Has Been Clock Maker for Past 47 Years

CLOCKMAKING bench is almost anywhere Roy Price sits down. Above photo shows Price looking over movements that need repairing. Clock in foreground was damaged in shipment from Germany.

Any one who has ever taken the old alarm clock apart knows that the plain-looking case holds a myriad of wheels and springs. Just repairing one sounds like a real job, and when it comes to making one, it sounds like an impossibility. But for Roy Price it has been a major part of his work since 1913.

Price operates a store across the street from the junior high school and there he works on clocks throughout the year--and occasionally makes one. "This last summer I made 14," Price comments on his work. "It's a job I do when I have time to spare around the store."

Price has never had any formal schooling on watch repairing or building. "I bought a drug store in 1913," he remembers, "and there was an old man who did watch repairing in the store."

"He told me that he would teach me about watches if I would let him remain in the store. I let him stay and he taught me about watches and also spectacle fitting. He had a supply of reading glasses and I learned about them, too."

World War I interrupted Price's work with watches and clocks. After the war he went to work for a Bonham jeweler and managed the store for 5 years.

Price has had a shop in his present store 13 years. He has a stock of approximately 100 clocks, some of them he has built himself.

Several of the clocks in the store are not for sale. One such clock has wooden works and was in one family 156 years before Price got it.

"I was living in Friona and had a shop next to the Friona Star office," he says. "John White was running the paper and I got to know him pretty well. He kept the clock at his house and dropped it one day."

"He called me out to the house and just gave me the clock. He told me that several of his relatives had been after him for the clock and he knew I would take good care of it. I guess that settled the matter because none of the relatives contacted me."

Repair work comes to Price from all over the nation. "I have 10 or 12 grandfather clocks to repair now but don't have time to get to them."

Many of the clocks he works on have parts that cannot be bought. So he makes them. Other parts are hard to obtain.

"I have been working on one at the museum about a year," he relates, "and it requires a special cable which the army has priority on. I finally managed to get the cable the other day and now I can repair the clock."

Price says he has several antique clocks, a Seth Thomas and several with wooden works. He has one group of porcelain faced clocks with scenes around the sides. One of these clocks has colored nursery rhymes on it.

ROY PRICE is shown above with two clocks he has recently made. by spring power. Many parts, including the cases, are made by Price.

## SPORTS TALK

by Witt

Weekend fishing reports still add up to below average fishing. Small crappie are about all that are biting at Conchas Lake. The water level is down also. We have several parties at Lake Texhoma this week who will bring some reports back.

Have had many reports of fish being caught at Buffalo Lake--in fact of hundreds of small bass and channel catfish from 6 to 9 inches being taken. This size is actually too small to eat. Please handle them with care and throw them back. Next year they will be one and one-half to two pound fish--a size to eat.

Dove hunting is hit and miss. So far they are in one place today and another the next. I hunted below the cap around Turkey and Quitaque over the weekend. Birds are thick in a small area. Then you won't see a bird for eight or ten miles. There is not enough ripe grain yet.

We have had a number of complaints in the past few weeks on dove hunters opening the quail season. We have lots of quail around Canyon this year and some of us could be lucky and get some good hunting. But if we ruin our landowners relations, no one will have any sport.

I have acquired a Colorado

# Greek Student Enjoys School, Speaks 5 Languages Fluently

## Seek Greek Use Of Grain Sorghums

Two U. S. agricultural leaders will push for greater use of grain sorghums and other feed grains in Greece and assist local farm leaders there with related livestock and poultry problems and opportunities.

Named as consultants to the U. S. feed grain exhibit at the International Trade Fair at Salonika, Greece during September are William W. Grisham, Jr., of Amarillo and Dr. E. L. Stephenson of Fayetteville, Arkansas.

Grisham, a District Extension Agent of the Texas A & M College System, supervises the work of the county agricultural agents in the 22 counties of District I area of the Extension Service, while Dr. Stephenson of the University of Arkansas is a recognized authority on poultry nutrition.

Goal of the pair's month long tour is to further show Greek feed industry leaders and farmers, through demonstration, the practical aspects of using grain sorghum in mixed balanced livestock rations, according to Frank Moore, president of the Grain Sorghum Producers Association, through which the arrangements for the assignments were made, in co-

after a visit there in 1959 of Association officials and that of Dean Gerald W. Thomas of Texas Technological College and E. Martin Gossett, County Agricultural Agent of Dumas. Besides serving as consultants with the U. S. exhibit, Grisham and Stephenson will visit with Greek Government Ministry of Agriculture officials, feed manufacturers, livestock and poultry producers and other agricultural officials relative to the use of American feed grains - corn, grain sorghum, oats and barley - in balanced mixed feeds.

Enroute to Greece the pair will stop for consultation with officials of several of England's operation with the U. S. Feed Grains Council and Foreign Agricultural Service. Moore said he is pleased to join V. G. Young, Director of the Texas Extension Service and Dr. John W. White, vice president of the University of Arkansas, in announcing the forthcoming 30 day activities in interest of developing further markets for U. S. feed grains.

These assignments are a continuation of the promotion of the use of grain sorghum in Greece

By Verita Sanders  
WT Journalism Student

"Learning is perhaps the most important thing in life," states Lee Kay, pert and petite student from Greece and a new face on the West Texas State campus this fall. A long list of schools, both public and private, is one bit of proof for her belief.

Lee Kay, with her husband, Sgt. William Kay, U.S.A.F., arrived in the United States one year ago this August and moved to Amarillo where Sgt. Kay is now based. Lee attended Amarillo College last year and this summer, pursuing her studies in physics and art.

After attending grade school and high school for 12 years in Greece, where the study of French is required, Lee studied in several cultural institutes before entering Grilinda Childs Pierce American College in Athens.

Lee is quick to admit that home in New Smyrna, near Athens, was never like this. "There we have no electives in college," explains Lee.

"During the junior and senior years of college there is more of a variety, but there is no choice of subjects for the so-called freshmen and sophomores. One big difference is that a student in Greece attends college for three years, while here we attend for four. The first year in Greece is a combination of the freshman and sophomore years here."

Lee, who is classified as a junior, was married to Sgt. Kay in 1957 and the couple lived in Greece until their moving to Amarillo in August of 1959. Her parents still reside in New Smyrna, a suburb of Athens. Lee has one sister, who is married to an American, and she looks forward to her arrival in the United States in May.

Lee's future plans are fairly definite. She intends to further her studies in the field of physics for her vocation and in art to satisfy her creative ability. She likes the people and climate of this area and is not at all unwilling to settle here permanently.

According to her associate, Lee has a variety of interests and a genuine love of people, and is quick to make friends among the other students on campus. Good-natured Lee takes some gentle kidding from her neighbors in Brown Hall concerning her pronunciation of some English words, but she makes very few mistakes in the language. Not to be outdone, she often baffles her tormentors by conversing either in French, Italian, German or Greek, all in which she is fluent.

Foods is one subject Lee likes to compare with her homeland. "In Greece," says Lee, "we

have meat about once a week, or twice at the most for the average family. Otherwise, our most prominent food is vegetables, beans especially."

Vegetables are served in many different ways and are in the main dish of the meal. An incredulous Lee states, "Here in America when a child asks his mother what is to be served

for dinner she answers that they are having meat or fish with this, and that, and some more of this. But in Greece a mother answers that they are having beans-and that is all."

"We eat olives like candy," says Lee, "and we fry in oil instead of in fat. I discover something new and different

every day in the American way of preparing foods."

Lee tells of her country's love of swimming, mountain climbing and basketball and professes to like all kinds of sports. "But," she adds cheerfully, "everything can be fun if you are in good company and among friends." And her associates agree, laughter-loving Lee will never lack for friends.

## Max Downing Is Spare Time Gun Repairman

Gunsmithing is not a business in which one just "hangs up a shingle."

Max Downing of Canyon offers proof of this—a graduation certificate from a Colorado school representing 66 weeks of class work. Working only in his spare time, Downing repairs all types of guns in his father's basement.

Downing attended the Colorado school and spent over a year learning about, working with and firing different types of guns.

"One of the class projects was removing the rib from a double barrel shotgun, taking the barrels off and putting the whole thing back together again," Downing said. "The guns must have been taken apart over a hundred times."

After graduation Downing spent a year working as a gunsmith in Oklahoma. He worked in Ponca City and Oklahoma City.

Spending only off hours working on guns Downing does most of his work on sights and recoil pads. Occasionally he will rework a gun entirely—or build one.

His prized possession is a "sporterized" Springfield with a Weaver K-3 scope. Stock is of smooth-grained walnut featuring a "cast-off."

"The cast-off allows the shooter to line up with the sights without bending over the rifle," Downing explained.

"With a stock built with cast-off the shooter is in line with the sights without any effort."

While in the service he did some match pistol shooting and has entered several National Rifleman Association meets.

Not only a gunsmith, Downing is an expert shot with a pistol and has several medals and prizes to emphasize the fact.

Don't judge a man's future by his past—experience may have taught him a lesson.

MAX DOWNING is shown above as he marks off a stock on a piece of walnut. In gunsmithing school Downing had to make several stocks.

## Salad Supper Begins Hite Year

A salad supper began a new club year for the Sue Hite Club.

Held September 26 in the home of Mrs. Burney Slack, the supper was under the direction of the hospitality committee, composed of Mrs. Cran-nell Tolliver, Mrs. Oscar Hing-ey, Mrs. Ted Crager, Mrs. Joe Whittington, Mrs. K.L. Pond, and Mrs. A.C. Clark.

"Our Presidential Candidates" will be discussed at the next meeting, to be held October 10 in the Panhandle-Plains Historical museum. Mrs. Clay Cooper will lead the discussion of John F. Kennedy, Democratic nominee, and Mrs. E.E. Perkins will present the discussion of the Republican nominee, Richard M. Nixon.

## Parents-Teachers Meets End at Monday Session

Annual series of meetings between teachers and parents of elementary school students concluded Monday night.

The sessions were held for the parents and teachers by grades. Elementary school includes grades 1-4.

E.R. (Rex) Reeves, principal of elementary school, said that it had been reported to him

that a good percentage of the parents attended the meetings. The sessions are held yearly so that parents may become acquainted with teachers, ask questions, and so that teachers may explain the various programs of each grade.

# Drama Professor Collects Masks, Symbol of the Theater

WAM MOORE admires a tin mask from Mexico from his parents' collection of masks. In the background are masks mostly of oriental origin.

Symbols of Mr. and Mrs. William A. Moore's profession decorate the walls of their new home in southeast Canyon. Moore, associate professor of speech and drama, and director of Branding Iron Theatre, and his wife have displayed the 40 pieces of their mask collection throughout their home. Mrs. Moore directs one play each year for the Amarillo Little Theatre group, and before her marriage was a speech and drama instructor.

Masks have been symbols of drama since the Greeks used them in giving their plays. Masks were worn to portray the various characters as make-up was not then in use. By Shakespeare's time, masks were not commonly used, but they are now beginning to appear in more modern plays.

Perhaps the most common symbol of drama is two masks (or masques)—one gay and one sad, to indicate comedy and tragedy.

About half of the masks owned by the Moores were given to them by friends and various dramatic groups with which they have worked. Some of these are of wood and one that is most impressive is of turquoise stone mounted on a pedestal. This mask is carved in a silhouette style. Some of the smaller masks were made by drama students for the Moores.

Quite a bit of sentiment is attached by the couple to a larger mask of the comrader. This one was bought in New Mexico. The Moores also have masks from Virginia, Connecticut, Colorado, California, Illinois, New York, Texas and Mexico.

While each mask has a story for the Moores, they have notices that makers of the masks many times will not divulge information concerning the origin of the particular mask pattern. Most of the masks are handmade of wrought iron, tin, wood, or stone, although practically any material may be employed in mask making.

WOODEN MASK given to the Moores by Dr. Ples Harper has been mounted and placed in the hallway of the Moore home. Harper purchased the mask shortly after the maker finished it.

A pair of the more modern masks are embellished with a single rhinestone each in seemingly unconnected locations.

The Moore's masks have been collected during their various travels to drama festivals and while they were attending school. The bulk of the masks are oriental, Greek, Indian, African, and modern in design.

Occasionally the Moores will notice a particular mask which they would like to own a copy. They have books and prints of masks in their library, and are now wanting to be duplicates of African masks. They have also studied collections at Yale, the University of Michigan, the Museum of Modern Art, and the Metropolitan Museum.

While the Moores have not noticed others in Canyon with this particular hobby, they have interested several of their students in the hobby.

Both of the Moores own jewelry done in a mask motif, which are mostly made of silver or copper.

The Moores have grouped the masks throughout the house using Greek masks in the formal living room, and the more colorful ones in the light-colored hallway. Masks of black accent the fireplace, and gold, bronze, and brown tones are used against the wood paneling of the den.

# Dorm Mother for Boys Tells of Experiences

"I think it's the most wonderful job for a woman whose family is gone from home!" Mrs. Dottie Dorris declared as she spoke about her work as director of Terrill Hall at WTSC.

Mrs. Dorris became dorm mother at Stafford Hall in 1953 after being offered the position by college officials. "I had never thought about being a dorm mother," she says. Stipulation of the position was that her daughter Anne be allowed to live with her in the dorm, as Mrs. Dorris had moved to Canyon from Ranger to be with Ann, who was attending WT. This may not seem to be an unusual request, but Stafford is a men's dormitory, as is Terrill. The request was granted.

When Mrs. Dorris and Ann moved into Stafford, the men had already been there six weeks without supervision, and "They resented me some and thought that I was going to be a dictator—but I was determined to win their friendship," Mrs. Dorris said. She baked cookies every morning, inviting all of the boys to eat them anytime. Coffee was always available to the boys and as she says "My coffee pot never was cold." The kitchen was never closed to the boys except during the Dorris' mealtime.

Late one night Mrs. Dorris went to calm down a group of the boys, and the next morning a poem describing the incident appeared on the bulletin board of Stafford Hall. And she always received a number of Christmas cards each year from ex-WTSC students who have lived in her dorms. Any of the boys that are visiting the campus always drop by to visit with her.

"It really keeps you young when you're around lots of young people—and you really have to be able to take teasing and joking!" Why do most of the dorm mothers of WTSC take time to be together each day at noon—just for a little peace and quiet?

In Stafford Hall in 1953, there were accommodations for 36 boys. "It was a mess then," she recalls, "my living room and bedroom were on one end, and the kitchen and eating quarters were on the other end!" In 1957 when she moved to Terrill Hall as dorm mother, there was room for 98 boys in Stafford.

In Terrill, Mrs. Dorris has an apartment consisting of a living room, bedroom kitchen, and bath. She furnishes the apartment, except for the kitchen appliances.

Now she doesn't have to

closely supervise the boys, as she has the help of several student wing advisors. Also, the dean of men handles the more serious problems. Still, she is always available when needed "and my living room door is never closed. Some of the boys watch television with me when their favorite show isn't being watched in the lobby."

Occasionally, Mrs. Dorris will bake a cake and have a few boys in for a birthday party for one of the boys. In reverse to this, the boys of Terrill surprised Mrs. Dorris last year with a birthday party. Coffee and cake were served by several of the boys' girl friends who acted as hostesses, and most of the boys dropped in during the party.

She supervises the janitors of the hall, keeps books on the room and board payment, attends to the filling of soft drinks and candy machines, and generally runs the dorm.

Mrs. Dorris usually leaves during holidays, too, visiting with her children, three of whom are WTSC graduates. They are Mrs. Carlton (Walden) Thompson (class of '46), of Crosbyton; Mrs. Wanda Van Valkenburg (class of '59), of Dimmitt; Mrs. Don Drennan, and Glenn Dorris of Canyon.

And Ann? She married an ex-Stafford Hall boy in 1957. She is now Mrs. Noel Maxwell of Fort Hood. The wedding was held in Hill Chapel and the reception in Stafford Hall.

## FRIDAY! THE GREATEST

## SIXTY-ONE DERFUL CHEVROLET

Here's the car that reads you loud and clear—the new-size, you-size '61 Chevrolet. We started out by trimming the outside size a bit (to give you extra inches of clearance for parking and maneuvering) but inside we left you a full measure of Chevy comfort. Door openings are as much as 6 inches wider to give feet, knees, and elbows the undisputed right of way. And the new easy-chair seats are as much as 14" higher—just right for seeing, just right for sitting.

Once you've settled inside you'll have high and wide praises for Chevrolet's spacious new dimensions (in the Sport Coupes, for example, head room has been upped as much as 2 inches, and there's more leg room, too—front and rear). Chevy's new trunk is something else that will please you hugely—what with its deep-well shape and bumper-level loading it holds things you've never been able to get in a trunk before.

Yet, generously endowed as this car is with spaciousness and clean-etched elegance, it holds steadfastly to all the thrifty, dependable virtues Chevrolet buyers have come to take for granted. Your dealer's the man to see for all the details.

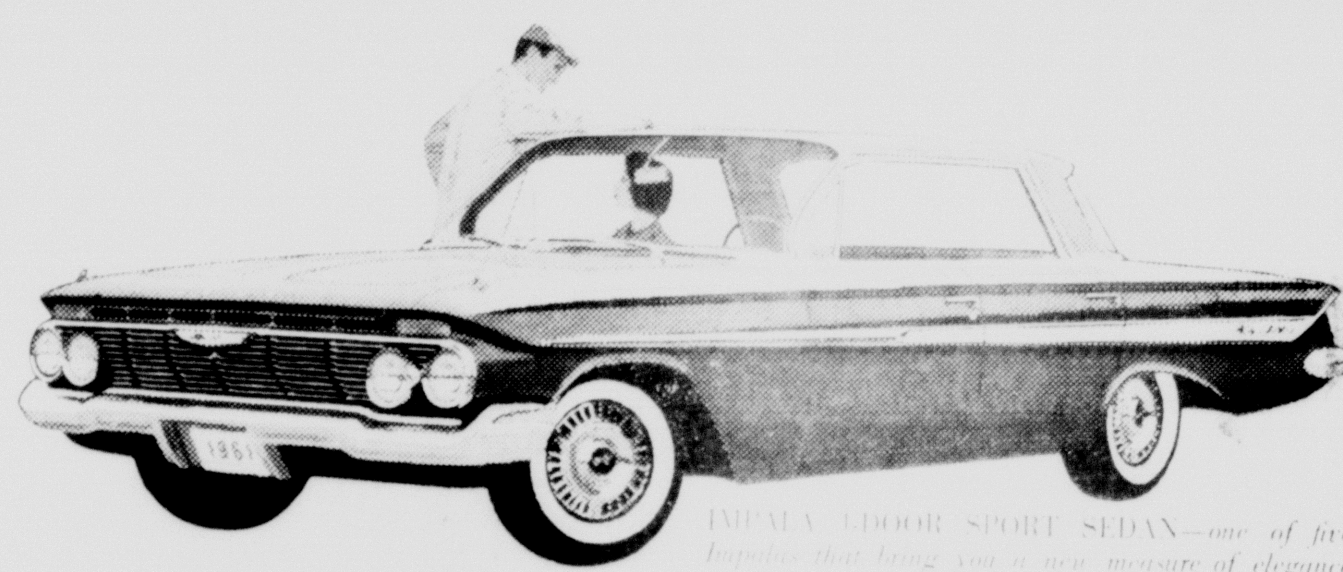

There's never been a trunk like it before! The floor's recessed more than half a foot and the loading height is as much as 10 1/2 inches lower.

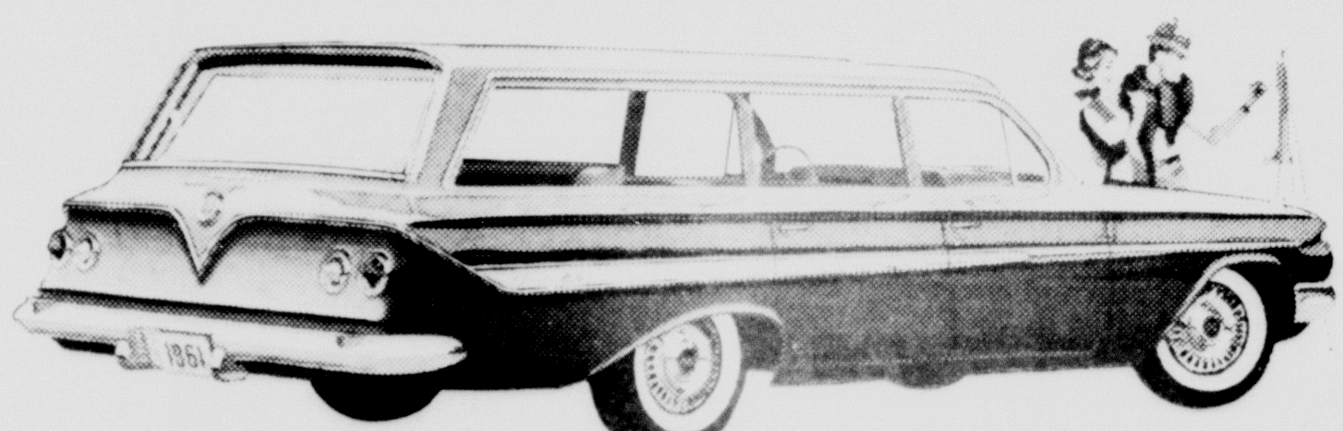

## INTRODUCING THE '61 CHEVY BISCAYNE 6

the lowest priced full-sized Chevy with big-car comfort at small-car prices!

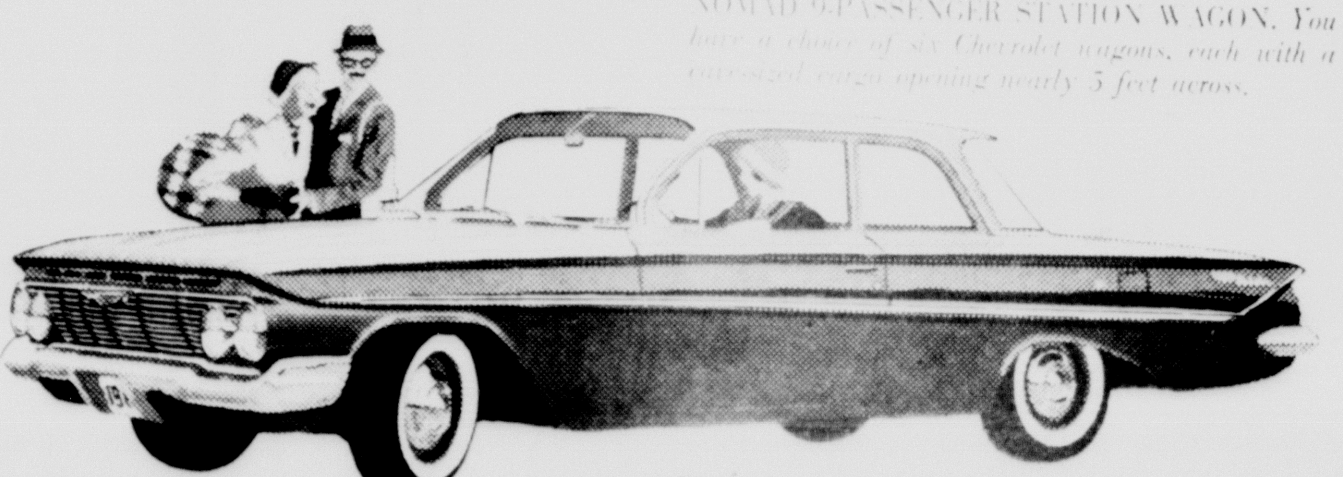

Chevy's new '61 Biscaynes—6 or V8—give you a full measure of Chevrolet quality, roominess and proved performance—yet they're priced down with many cars that give you a lot less! Now you can have economy and comfort, too!

IMPALA 4-DOOR SPORT SEDAN—one of five models that bring you a new measure of elegance from the most elegant Chevrolets of all.

NOMAD 9-PASSENGER STATION WAGON. You have a choice of six Chevrolet wagons, each with a cargo opening nearly 5 feet across.

BEL AIR 2-DOOR SEDAN, like all '61 Chevrolets, brings you Bel Air by Fisher neatness—more front seat leg room.

# Mrs. K.E. Hines Enjoys Hobby Of Creating Arrangements

ANOTHER typical arrangement of dried vegetables is this one, which also uses artificial fruit and pheasant feathers.

## Allen Parsons Have 1st Child

The first child of Mr. and Mrs. Allen Parsons has been named Allen Dwayne.

The baby was born September 21 in Neblett Hospital, and weighed 7 pounds, 13 ounces at birth.

Maternal grandparents are Mr. and Mrs. Charles Scales of Friona. Maternal great-grandparents are Mr. and Mrs. C.B. Roberson of Paris, Arkansas, and Henry Scales of Tilden, New Mexico.

Mr. and Mrs. J.A. Parson of Brownwood are the paternal grandparents. Great-grandparents are Mr. and Mrs. T.E. Parson of Brownwood, and G.E. Smith of Friona. A great-grandmother is Mrs. Green of Eldorado.

No pleasure is comparable to standing on the vantage ground of truth.

--Sir Francis Bacon

Mrs. K.E. Hines is one person who has no trouble recognizing beauty in plants of the Panhandle area.

Her hobby is creating arrangements of dried fruits and vegetables, accented by driftwood, artificial fruits, and similar items.

She has created more than 200 arrangements since she became interested in the hobby through a close friend who had sent her a book on the subject. The friend also showed Mrs. Hines arrangements that she was making.

Mrs. Hines makes several types of arrangements, including centerpieces and plaques. In each she follows a pattern of contrast.

For the centerpieces she may use dark driftwood as a contrast for the yellows and oranges of artificial fruits and dried squash and okra that have been painted. The plaques feature dark arrangements of light wood.

The only other "rule" Mrs. Hines follows in creating an arrangement is to keep it at an angle, with tall and low points. The large, bulky items are placed near the bottom. She has collected items from a 10 state area for use in the arrangements.

Following one of her appearances on an Amarillo television show, Mrs. Hines was given pokeberries from Missouri by an Amarillo woman. She also has very large pinecones from California and large acorns from Louisiana.

The Hines family, which consists of Mr. and Mrs. Hines and their three children, Sondra, 19, Stephen, 12, and Mike, 7, moved into their new home at 2102

MRS. K.E. Hines debates the placement of a pine cone in an arrangement featuring pine cones, drift wood, and ornamental gourds sprayed gold.

Fourth Avenue about three months ago. Many of Mrs. Hines' arrangements are stored in the garage, but she hopes to have them on display after the family finishes remodeling.

For the arrangements using dried vegetables, she dries the items herself.

The bulky vegetables are permitted to preserve themselves through natural processes.

Anything fine, like a magnolia leaf, is dried in a solution that

uses one part of glycerin to three parts of water. It is allowed to stand or be immersed in the solution for three to six weeks and is removed when it reaches the desired color.

Mrs. Hines has used such things as tree fungus, pine cones, mildewed squash, okra, trumpet vine pod, wild thistle, wild tomato, milk weed pods, and leaves, red pepper, roots, pieces of wood, squash, Chinese jujube nut, and acorns.

One of her special favorites

is four plaques, two oval and two round, which features dark vegetables and seeds mounted on unfinished cottonwood plaques.

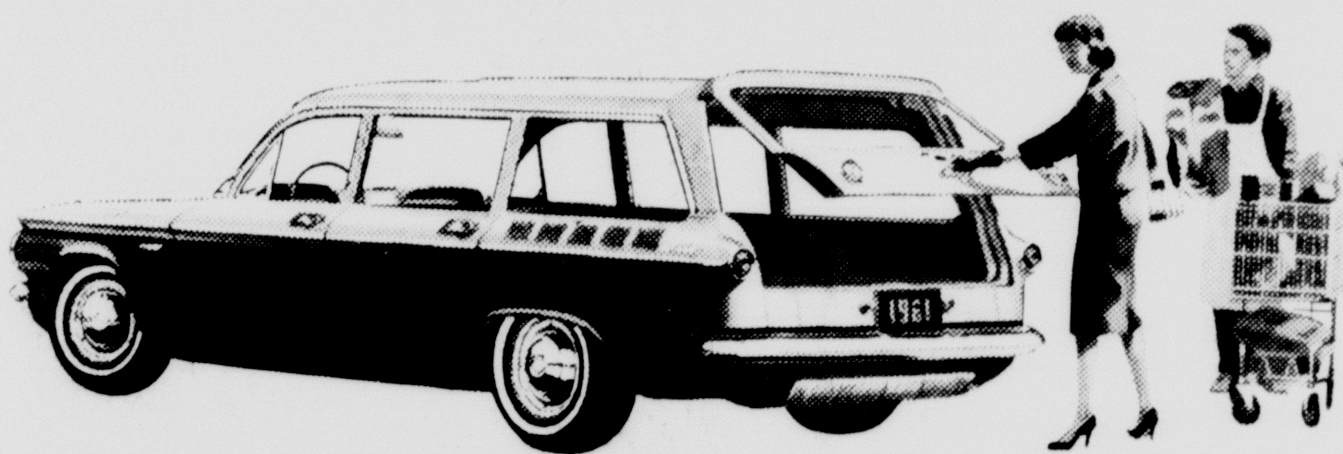

Mrs. Hines has found there are many people who have trouble seeing the beauty of everyday things. These persons think that beautiful things come only from other areas.

She believes there are many beautiful things in the Panhandle--yucca, milkweed, and other plants.

# SHOW ON WORTH!

## NEW '61 CHEVY CORVAIR

More space . . .  
more spunk  
and wagons, too!

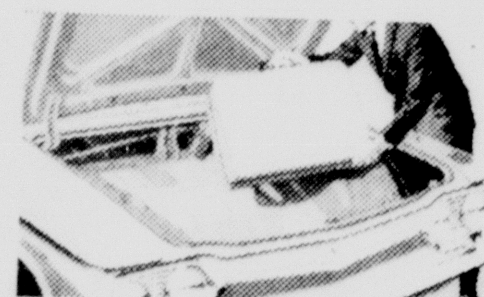

The newest car in America: the CORVAIR 700 LAKEWOOD 4-DOOR STATION WAGON.

CORVAIR 700 CLUB COUPE. Like all coupes and sedans, it has a longer range fuel tank.

CORVAIR 700 4-DOOR SEDAN. Provisions for heating ducts are built right into its body by Fisher.

Spare tire is in the rear in coupes and sedans--leaving more luggage space up front.

Even middle-seat passengers sit pretty, thanks to Corvair's practically flat floor.

Now in production--the GREENBRIER SPORTS WAGON with up to twice as much room as ordinary wagons (third seat optional at extra cost).

Here's the new Chevy Corvair for '61 with a complete line of complete thrift cars.

To start with, every Corvair has a budget-pleasing price tag. And Corvair goes on from there to save you even more. With extra miles per gallon . . . quicker-than-ever cold-start warmup so you start saving sooner . . . a new extra-cost optional heater that warms everyone evenly. Riding along with this extra economy: more room inside for you, more room up front for your luggage (sedans and coupes have almost 12% more usable trunk space).

And our new wagons? You'll love them--think they're the greatest thing for families since houses. The Lakewood Station Wagon does a man-sized job with cargo, up to 68 cubic feet of it. The Greenbrier Sports Wagon you're going to have to see--it gives you up to 175.5 cubic feet of space for you and your things.

Corvair's whole thrifty lineup gets its pep from a spunkier 145-cu.-in. air-cooled rear engine. Same rear-engine traction, same smooth 4-wheel independent-suspension ride. See the polished and refined 1961 Corvair first chance you get at your Chevrolet dealer's.

## Cindy Gruner Takes 7 Ribbons At T-State Fair

Cindy Gruner won a total of five blue and two red ribbons for her entries in the Tri-State Fair.

In the junior sewing division Cindy won first places on a skirt, a blouse, cup towels, and an apron. She received a blue ribbon for each.

Cindy won a first on her pickled beets and a second on her pickled peaches in the junior culinary division.

In the open culinary department, she won second on her lima beans.

If you do not think about the future, you cannot have one.

## KEEPING UP WITH THE ARTS

Mary Caballero

Every once in a while you flip on your radio and receive a very pleasant surprise. We have the most wonderful chance to hear the finest selections in the musical field.

Clyde Roller, Amarillo Symphony conductor, is responsible for all this good listening. There is a special program every evening on KGNC at 7 on the FM station. This program

is made up of very beautiful recordings. Hope you have an FM radio.

Then on Sunday following each symphony concert, and this is on FM radio, too, you can hear a broadcast of the symphony by KGNC. This program is at two o'clock in the afternoon. On Monday, a week following the symphony, on KGNC at 7:30 in the evening, you may hear the symphony broadcast on your regular radio channel.

This next Monday will be the beginning of a new feature. At 7:30 each evening before each concert, there will be a round table discussion or interviews with guest artists. This will be led by Clyde Roller. Everyone

can take the opportunity to hear this program as it will be regular radio on KGNC.

I'm sure that newcomers in our area will be glad to learn of this chance to hear these programs. Radio is sometimes neglected now that TV has taken over most homes.

The first symphony concert will be Tuesday night at 8 p.m. in the municipal auditorium. Eugene List will be appearing as guest artist.

Dr. Ples Harper will be conducting another one of those lucky groups who all load on a bus and go to Dallas to take in a special event at the Dallas State Fair.

The bus will leave on October 21 and return on Sunday October 23.

The group will attend the showing of "Flower Drum Song," the Rodgers and Hammerstein Broadway musical hit. It will be presented in the Music Hall.

On Saturday the travellers will be free to roam about Dallas and see some of the other very exciting things that are always available during the fall time.

Dr. Harper is head of the modern language department, and is in charge of the details of the trip. If you would like to inquire about the arrangements, I'm sure he would be glad to explain them to you.

The West Texas State drama department are working on the first play to be presented on October 19 through 22. Shakespeare's "Twelfth Night" will be the first play of the season. On Saturday, October 22, there will be a special matinee for visiting high school groups. There will be a workshop for the high school groups. There will be a workshop for the high school students to attend on Saturday in connection to the special matinee. The public may also attend the matinee, however.

On October 16, Mrs. Hazel Wiseman and Mrs. Cecile Foster of Sudan, Texas will be presented in an art exhibit in the WT Fine Arts Building. More about this later.

On October 6, there will be a Leading Development Workshop in the Community Building in Hereford. This is in connection with the state and district plans for the PTA theme for the year, "Education for Family Living." This will be at 9:30 a.m. for the district committee members.

The Connoisseur Society of Amarillo will hold their meeting

at the home of Dr. and Mrs. L. F. Sheffy on Thursday evening October 6. A special program on folk music will be given.

### RECORD RAMBLINGS

Last week we got as far as speaker systems in the discussion of high fidelity-stereo components. A speaker is a device for changing electrical energy back into sound. There are the usually known cone speakers, and the less well known disc speakers, and the more recent electrostatics, which are a large, thin, rectangular sheet. The sound is produced by the active part of the speaker pushing forward and backward. Thus sound is produced both in front of and behind the speaker. The sounds tend to cancel as when the front side is pushing, the back is pulling. In order to make speakers more efficient, an enclosure is used. This is not simply a piece of furniture in which complements the speaker or speaker system.

There are wide range speakers which produce all the vibrations from the lowest note to the highest. A good full range speaker is better than two or three poor speakers in a system, but a better job can be done by dividing the work. The low tones can thus be produced by quite small, flexible "tweeters," and that between can be handled by a mid range, or "squawker." Electronic devices known as crossover networks divide the high, low, and medium ranges and channel them to the correct speaker. A good stereo system will usually use two matched sets of three speakers, although many variations are possible and quite acceptable.

In general, there is nothing quite like the sound of big speakers in big cabinets. To my ear the best enclosure is a so-called horn loaded, which plays the music through an expanding channel folded in the enclosure something like a French horn. A bass reflex enclosure will give a very good sound, preferred by some. It is a little less brilliant. Putting a speaker in the wall, or the door of a closet is a quite satisfactory way of making an enclosure, plus being less expensive.

There have recently been developed the so-called bookshelf speakers in an attempt to solve the problem of putting the two speaker systems necessary for stereo in a small room. Three speaker systems will fit nicely in a bookshelf of large encyclopedia size. Wonders are done for the size, but there is still nothing quite like the big system. Various other solutions have been offered. In as much as very low tones are non-directional, i.e. cannot be accurately located in space by the ear, the satellite systems have been developed. This consists of a relatively large enclosure which houses the woofer. Then two small enclosures containing the tweeters or tweeters and mid range are placed in the usual locations for stereo. This will usually give a very satisfactory stereo system.

Recently electrostatic tweeters have been put on the market. They have a reputation of very clean reproduction of the high notes. They probably do a better job than corresponding price tweeters, and they will make a very good system if matched correctly. They must be used with an inefficient system such as the AR or the KLH. They are large. They probably do not do a better job than a relatively expensive tweeter which can be better matched to most speaker systems.

## Randall Scout Committee Outlines Plans for Month

Plans for the coming month were outlined by the Randall District Committee of the Llano Estacado Council of the Boy Scouts of America in its meeting Friday in the West Texas State College cafeteria.

Wesley Cox, camping activities chairman, told of plans for a Golden Jubilee Camporee, to be held at Camp Don Harrington October 28-29. Troops to participate in the event are from Hereford, Friona, Vega, Adrian, Happy, and Canyon.

Ten contests will test scouting skills and general camping ability.

Cox said he was recruiting six men to assist in judging the contests.

A "get out the vote" campaign is scheduled for November 5, when Cub and Boy Scouts will distribute Liberty Bell placards, urging residents to vote in the general election November 8.

Canyon will be divided into five service areas, with Post 66, Post 31, Troop 66, Troop 31, Pack 31, and Pack 97 taking part in the campaign.

Joe Gidden organization and extension chairman of the district, gave a membership report, which showed 125 Cubs, 84 Scouts, and 36 Explorers enrolled in the Scouting program.

He also reported a boy-fact survey had been conducted in the Canyon Public Schools and it had revealed 38 boys desired to join local troops.

Gidden said Post 31 charter would be presented to First Methodist Church early in October and Pack 97 charter to the First Baptist Church in October.

Others present were Cecil Wesley, Happy, institutional representative of Scouting; Frank Morgan, district vice-chairman; and W.R. Wilson, district scouting commissioners.

Troop 66 and Post 66 charters have been presented to the First Christian Church.

Troop 66 and Post 66 charters have been presented to the First Christian Church.

Dr. J.A. Hill, member of the council executive board, gave the invocation. O.W. Parker, district chairman, presided, and W.M. Teague of Amarillo, assistant Scouting executive, discussed work schedules, which were assigned by Parker.

Others present were Cecil Wesley, Happy, institutional representative of Scouting; Frank Morgan, district vice-chairman; and W.R. Wilson, district scouting commissioners.

## Cates Named ROTC Head

Winfred R. Cates, Lefors senior, has been named battle group commander of the West Texas State College Reserve Officers' Training Corps unit for the fall semester.

Company commanders are Le-on Tuttle of Amarillo, Robert E. Jones of Plainview, Roger Huffaker of Frenship, Billy Lightsey of Littlefield, and Bruce Wimberley of Dawn. Company executive officers are William Adams of Amherst, Elbert Vise of Happy, Bobby Tipps of Canadian, Ken Friemel of Groom, and Willis Harrison of Allison.

Platoon leaders include Keith Blair of Clovis, D.G. Bowman of Amherst, Eugene Levitt of Wheeler, J.C. Embry of Amherst, Gerald Free of Canyon, Ray McCown of Plainview, Don Carpenter of Farwell, G.V. Holland of Masterson, Ken Loveless of Waco, and Jerome Edwards from Canyon.

G.D. Hunter of Amarillo, J.R. Roberson of Amarillo, Johnny Orsak of Canyon, K.D. Julian of Floydada, Morris Alexander of Anton, Gry McRoberts of Amarillo, James Garner of Childress, Dennis Moser of Dumas, and V.C. Vincent of Amarillo.

## Andersons Have 2nd Child

Mr. and Mrs. James Anderson became the parents of their second child, a daughter, September 22.

The baby was named Batina Beth. She has a 13-month-old brother, James Kent.

Batina weighed 7 pounds, 9 ounces at birth in Neblett Hospital.

Maternal grandparents are Mrs. Audrey Stroup, Canyon, and Bryant Stroup, Canyon. Mrs. Mattie Vandergriff of Canyon is maternal great-grandmother.

Mr. and Mrs. Otto Langston of Vigo Park are the paternal grandparents, and Mr. and Mrs. E.E. Beasley of Raymondville, Missouri, are great-grandparents.
